

RESEARCH

Research the financial crisis of 2007 - it is sometimes referred to as the '*credit crunch*'.

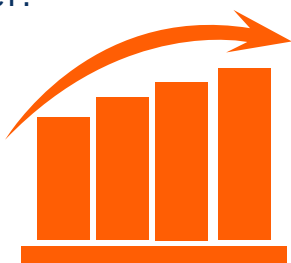

There is a wealth of material available on the Internet, as well as videos, books and even films.

TASK

Write a word processed report - 2 sides of A4 maximum - explaining the causes of the financial crisis and how the crisis impacted the global economy.

This must be written as if the person reading the report has no knowledge of finance or the financial crisis.

As you write your report, you may come across words you don't understand. Try your best to research the definition, however, you should keep note of these words so they can be discussed during the first lesson in September.

OVERVIEW

You will complete 2 units in Year 12 and 2 units in Year 13. Your work in Year 12 will contribute to your final grade.

In Year 12, you will complete 4 exams in total - 2 exams in January and 2 exams in May.

When you join us in September, please ensure you have a ringbinder ready for your first Finance lesson. You may also find it useful to have folder dividers ready in your folder too.
