

27th March 2024

Dear Hadley Year Parent,

Year 11 - Specialist GCSE Tuition

At Oasis Academy Hadley, we want to ensure that your child is well prepared for their forthcoming GCSE examinations and achieves their full potential. To support this we are working with the National Tutoring Programme (NTP) to provide additional tuition to ensure Y11 students get the best grades possible in their upcoming GCSE exams. There is extensive evidence which shows how powerful one-to-one and small-group tuition is to support the progress students make.

Tuition in Maths will take place during the Easter holidays at the times detailed below. Please speak to your child about these and encourage them to attend on time. Punctuality is key to these sessions and if they fail to attend on time then they may not be able to attend these classes in the future.

Subject	Day and time	Classroom
Maths	Thursday 11th April 10:00-12:00 Friday 12th April 10:00-12:00	147W

Please contact me if you have any questions.

Yours faithfully,

Sarah Hamilton
Assistant Principal

Year 11 Student Support

Ways to support your child in Year 11	
Red books (Revision exercise books)	All Year 11 students are given red exercise books that they can use to complete revision and studies for any subject. Please ensure your child is making revision notes in this book or any other book they may have.
Study timetable	Assist your child in creating a timetable they can use for out of school study time. Include after school and weekends and ensure it balances all subjects and relaxation time. Templates will be provided on Show my HW.
GCSEPOD www.gcsepod.com/	All Year 11 students have been given logins for GCSEPOD, an online revision and study tool which provides videos and questions on all subjects. The Red book is perfect to make notes from these pods.
SENECA senecalearning.com	Another online study resource which covers all subjects. This is completely free to sign up to. The Red book is perfect to make notes from these resources.
Tassomai www.tassomai.com/	Online study resource focusing on Maths, English and Science. All students have logins and can use to access lots of interactive resources
Microsoft Teams INDEPENDENT STUDY folder	Through your child's iPad they will have access to MS Teams. This is where all work and homework will be set. It is also where an Independent Study is for every subject your child does. It includes revision support, lesson power points, exam practice and lots more so they are always able to add to their learning outside of school.
Revision guides	An excellent resource to purchase for your child but please ensure you check the exam board for the subject and also whether the department will be providing them to your child.
Intervention timetable	We will also provide extra-curricular support in the form of after school and holiday interventions throughout the year which will complement the lessons delivered in all subjects. We thank you in advance for allowing your child to attend these sessions and assisting us in ensuring that they participate in all those classes we deem necessary to make compulsory due to their individual learning needs.
Personalised Learning Checklists	These are available for every subject. These contain everything your child needs to know or be able to do to achieve the very highest grade in each of their subjects. You can support by asking them about their red topic areas and asking them what they are doing in order to improve.
Other resources	Below is a list of other useful websites which provide resources: bbc.co.uk/bitesize – lots of helpful revision notes, videos and quizzes vle.mathswatch.co.uk - Maths website containing videos and interactive resources. corbettmaths.com/ Maths website containing interactive resources hegartymaths.com/ - Maths website containing videos and questions rsc.org.uk/ – This website can be used for Shakespeare research thoughtco.com/ – This website is great for literary devices poetryarchive.org/ – This website provides students with notes on poetry
Student well being	It is important to realise that this will be a particularly stressful time. Eating healthily, having a proper nights sleep (8 hours+) and having periods of planned rest and enjoyment are all important. If you are particularly concerned there are staff in the school who can support further. Please contact their Head of Year – Mr Goddard or myself if you are worried about this.
