Yes

No

Applications made with medical reasons.

Some children may be given priority for admission to the Academy on medical grounds. We do not operate a social criterion for community schools.

Very few children are offered places under the medical criterion. Medical priority is usually given to children who have an exceptional illness or disability, which means that the Academy is more appropriate than another school.

If you think your child should be considered under the medical criterion when making your application, you must:

1. Explain how Oasis Academy Hadley can meet your child's needs better than any other school.
2. Supply supporting information from a doctor at the time you make your application.

Your request for your child to be given priority on medical grounds will then be considered by a panel of senior Oasis Community Learning staff following advice from LA advisers if appropriate. Further advice may be sought at the discretion of the Director of Education for Oasis Community Learning or their representative.

PLEASE NOTE it is not usually possible to give a child priority on medical grounds after the allocations have been completed if medical information was not submitted at the time of application.
